RESEARCH INTERESTS

Educational psychology; children's and adolescents' digital media use; adolescent learning and cognitive development; digital information environments and knowledge formation; psychological processes underlying learning and information evaluation.

EDUCATION

University of Sheffield | 2025–2026

MSc Psychology and Education (Conversion)

Weighted average: 69.83/100 (self-calculated from all released module marks).

Dissertation: 72/100; Research Methods: 72/100; Cognition & Neuroscience: 71/100.

Beijing Information Science and Technology University | 2021–2025

Bachelor of Management in Financial Management

Relevant coursework: Statistics; Data Processing and Visualisation with Python; Database Design and Querying; Financial Analysis; Microeconomics.

Undergraduate dissertation: Financial Statement Analysis of Wanda Film.

RESEARCH EXPERIENCE

AI-Assisted Story-Based Personality Assessment | Ongoing

Research support, Dr Mingjie Zhou's group, Institute of Psychology, Chinese Academy of Sciences

- Support the development of story-based assessment content by using AI to transform Big Six personality test items into scenarios, outlines and coherent narratives.
- Use AI for story review and assessment-item writing, checking construct alignment, realism and potential bias through an iterative content-development workflow.
- Help translate expert feedback into targeted revisions and updates to generation and review rules, distinguishing item-transformation, story-generation and wording issues.

Psychological Factors in Ethnic Educational Disparities in the UK | Jun–Sep 2026

- Conducted multi-source analyses using GCSE statistics, LSYPE2 longitudinal data and the UK PISA 2022 sample to investigate socioeconomic and psychological correlates of academic attainment.
- Examined educational aspirations, academic self-concept, school belonging and intrinsic motivation, with attention to differences across ethnic groups.
- Applied weighted random forest modelling and SHAP analysis to examine the predictive contributions of socioeconomic, psychological and school-related variables.
- Proposed evidence-informed digital intervention strategies incorporating mathematics self-efficacy feedback, anonymous psychological support and cross-ethnic peer matching.

Master's Dissertation — University of Sheffield | Mar–Sep 2026

Feasibility of a Seven-Day Online Mindfulness Intervention for University Students: Planned Outcomes in Anxiety, Sleep Quality, and Perceived Stress

Supervisor: Anna R. Weighall

- Designed and implemented a seven-day online randomised controlled feasibility study using Gorilla, comparing guided mindfulness practice with a light-music active control of comparable duration.
- Developed the online study workflow, including participant information, informed consent, eligibility screening, baseline questionnaires, random allocation and intervention tasks.
- Analysed participant records and CONSORT node-flow data to assess recruitment, consent and progression through the study, retaining 21 study-related access records after excluding test entries.
- Identified recruitment and retention barriers and proposed improvements to participant onboarding, assessment burden and follow-up support; focused conclusions on feasibility because complete follow-up outcome data were unavailable.

RESEARCH METHODS & TECHNICAL SKILLS

Research methods: Experimental and quasi-experimental design; feasibility assessment; quantitative data analysis; secondary-data analysis; literature review.
Statistical methods: Descriptive statistics; t-tests; ANOVA; regression analysis; random forest modelling and SHAP interpretation.
Research tools: SPSS; Gorilla; Python.

RELEVANT PROFESSIONAL EXPERIENCE

Beijing Xinhai Navigation Education Technology Co., Ltd. | 18 Mar–15 Apr 2025

Psychological Services Intern

- Assisted with school-based psychological assessment projects by checking participant information and organising assessment data.
- Supported the preliminary organisation and categorisation of psychological assessment results under supervision.
- Assisted with maintaining psychological assessment records, organising project materials, and handling routine administrative tasks for student mental health services.

Student Mental Health Education Center, BISTU | Mar–May 2024

Appointment Coordinator & Intake Interviewer

- Coordinated counselling appointments and initial intake reception, helping students access university psychological support services.
- Conducted initial intake conversations to understand students' support needs and facilitate subsequent counselling arrangements.
- Supported the appointment-to-intake process and routine coordination of student psychological services.

AWARDS AND HONOURS

Third Prize, Paper Track, the 3rd "Cangqiong Cup" National University Student Spatial Information Technology Competition | Oct 2023

Outstanding Works Exhibition Selection, the 2nd "Haitang Cup" National University Student Creative Comics Competition | 2022

LANGUAGES

IELTS Academic: Overall 6.5 — Listening 7.5, Reading 7.0, Speaking 6.0, Writing 6.0 (24 August 2024).
